

## Brief Introduction

[Zhengzhou Zhongding Heavy Duty Machine Manufacturing Co., Ltd.](#) is a joint-stock enterprise specialized in manufacturing mining machinery. Based in Zhengzhou Machine Industry Park, our company possesses the independent developing, processing and manufacturing capacity and also it has independent R&D center and production base.

Endowed with modern cutting equipments, advanced computer aided design system and perfect three-dimensional simulation test system; our company can ensure products' respective performance. We mainly manufacture the 50-5000tpd capacity stone crushing line and 100-3500tpd mine-selecting equipments with "ZHONGDING" brand. The main products of our company are: [ball mill](#)/grinding mill/grinder mill, **cement mill**, [sand maker](#)/vertical shaft crusher/sand making machine, **beneficiation equipment**/beneficiation machine.

Our company has passed the international ISO9001-2000 authentication, possessing the independent right to import and export within People's Republic of China. Products are classified into two series with more than 100 kinds of specifications. While expanding domestic market percentage constantly, our products are being exported to Chile, Venezuela, Peru, Russia, Ukraine, Georgia, Kazakhstan, South Korea, Yemen, Australia, Indonesia, Malaysia, Vietnam, Africa and so on, more than 50 countries and regions in total.

The accumulation of fruitful technology and the application of new technology have enabled the "[ZHONGDING](#)" brand equipment to acquire over 20 awards from country and industry. Perfect after-sales service system and team with professional after-sales service has provided customers with prompt and thorough service. Customer requirement serves as a kind of constant innovative power of our Zhongding people. Customer's success serves as foundation of our success and our top pursuit. Customer requirement serves as a kind of constant innovative power of our Zhongding people. Customer's success serves as foundation of our success and our top pursuit.

### **Service:**

Our company has the specialized after-sales service department, Help domestic and foreign clients to solve difficult problems occurred in the production process at any time. More than 30 engineers to the installation team to provide customers with high-quality professional on-site service, Undertake the medium and large complete sets of equipments to turnkey projects.

Zhongding Machine Mainly Produces: **ball mill**/grinding mill/grinder mill/ball mill, **sand maker**/sand making machine, [beneficiation equipment](#)/beneficiation machine, you can call advisory.

## **Products list**

### **stone crushing lines**

- Jaw Crusher
- Cone Crusher
- Combination Crusher
- Roll Crusher
- Sand Making Machine
- Vibrating Screen
- Hammer Crusher
- Impact Crusher
- Fine Crusher
- XSD Sandstone Washer
- Sand Washing Machine
- Vibrating Feeder
- belt Conveyor

### **Beneficiation Machine**

- Ball Mill
- Rotary Dryer
- Magnetic Separator
- Flotation Machine
- DC-type magnetic separator
- Spiral Chute
- High Frequency Screen
- Spiral Classifier
- Thickener
- Belt Conveyor
- Pendulum Type Feeder
- Bucket Elevator
- Tailings Reclaimer
- Jigger
- Shaking Table
- Blender For Ore Exploiting

### **Cement equipment**

- Mill Equipment
- Drying Equipment
- Rotary Kiln
- Dust collector/environment equipment
- Conveying Equipment
- Grate Cooler
- Tubular Cooler
- Electrical Control System
- vertical mill/roller press/grinding equipment
