

## Buying an overhead crane

*Zhongyuan Shengqi Co., Ltd. (Lyfoo is her distribution company for north China and international market) is one of the biggest crane factories here in China. At present, we have more than 2500 stuff in our factory and our turnover in 2009 is 130 millions US dollars.*

*Whether we are meeting a good or bad economy, it will always be a "buyers beware" economy. The Lyfoo members want to share hereinafter with prospective buyers of cranes so that they ultimately buy cranes that meet or exceed their expectations.*

## Some tips for buying cranes:

Write down

The weight that the crane will need to lift;

The lifting height and the span of the crane;

The traveling distance;

The lifting and traveling speed of the crane;

The work duty of the crane;

Your local power supply;
