**Gentleman**

**Ref.: Iron Ore & Manganese ore from South America**

### Iron ore

<b>Fe</b>	63,0 min. < 65% - Rejection 62,5%
SiO <sub>2</sub>	4,0% máx.
Al <sub>2</sub> O <sub>3</sub>	3,0% máx.
Phos	0,09% máx.
Size Lump:	10 -40 mm

### Manganese ore

<b>Mn</b>	43,0% min.
Fe	12,50% max.
P	0,20% max.
SiO <sub>2</sub>	6,50% max.
Al <sub>2</sub> O <sub>3</sub>	2,50% max.
H <sub>2</sub> O	6,0% max.
Tamaño	6,35 x 76,10 mm

The producing mines are located north of the Waterway Parana & Paraguay in Bolivia and Brazil.

Since the mines have to lower the iron ore rivers and loading terminal in the port of San Nicolas, Buenos Aires, Argentina.

I offer relationship directly with the mines, organize the logistics with river cargo ports, get and pusher barge convoy to transport minerals by river, to receive the cargo at the port terminal fluvial-maritime in Buenos Aires and transfer to the overseas vessel .

### Procedure

Send a letter of intent with clear specification of the formal request of intent to purchase.

This letter must be drawn up by the ultimate importer.

I will coordinate the meeting between all parties, mining, river port operators, freight operators river terminal operator Specialized port to receive minerals in Buenos Aires and banks to coordinate the financing business.

I remain attentive to their comments.

Greetings.

**JUAN MANUEL NIVEYRO**
