

DADESIN

Short introduction:

1. Customized prototype
2. ISO9001:2008
3. Short lead time/fast delivery
4. High quality and precision with competitive price

Rapid Prototyping Services we provide:

- 1, CNC Precision Machining
- 2, SLA/SLS (Stereolithography)
- 3, Silicone Rubber Mold and Vacuum Casting
- 4, RIM (Reaction Injection Molding)
- 5, Rapid Sheet Metal Prototyping

CNC precision machining

The price is negotiable, please contact with Allen zhougang115@163.com

SLA (stereolithography)

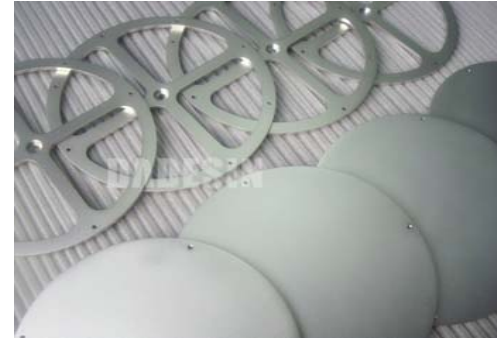

The price is negotiable, please contact with Allen zhougang115@163.com

Silicone Rubber Mold and vacuum casting

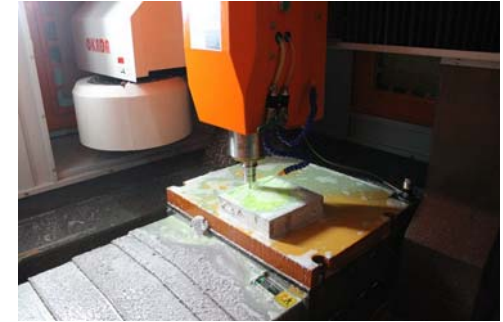

The price is negotiable, please contact with Allen zhougang115@163.com

Rapid sheet Metal prototyping

The price is negotiable, please contact with Allen zhougang115@163.com

Our office and factory

DADESIN

DADESIN PROTOTYPE CO.,LTD

Established since 2006, Dadesin Prototype is a professional rapid prototyping and short run production manufacturer that specializes in providing high quality and cost-effective solutions for product development and production. Through several years' big efforts and stable expansion, now Dadesin Prototype has developed into a strong team over 100 people and building area 2,000 square meters, located in Shenzhen (Southern China) close to Hong Kong. Based on the sound equipments, experienced people, and great prototype manufacturing expertise, Dadesin Prototype has provided customers impressive products and services over the past years.

DADESIN

Industries we have served:

Household appliance, Automobile, Medical devices, Electronics, Digital products, Kitchenware, Consumer goods, Toy, etc.

Materials available:

ABS, PC (Polycarbonate), PMMA (Acrylic), PA (Nylon), PA+GF, PP, POM, PU, PVC, Silicone Rubber, Bakelite, Chemical Wood, Aluminum, Brass, Copper, Stainless Steel, Iron, Magnesium, Zinc, etc.

Surface Finishes we provide:

Sanding, Sandblasting, Painting, Polishing, Silk-screening, Pass UV, Anodizing, Plating, Metal Brushed, Laser Etching, etc.

3D drawing formats available:

STP, IGS, X_T, JPG, PRT, STL, etc.

DADESIN

Max Size:

Max SLA machine size : 300x 290x 150 mm

Max CNC machine size : 1500x 680x 120mm

Max 3D printer size : 450x 300x 200 mm

Test Equipment and Facilities:

1. Inspection Scan Tool
2. Scan tool
3. Caliper
4. Micro caliper
5. Thread plug gauge
6. Precision color reader
7. Pin gage
8. Height gauge
9. Color assessment cabinet

FAQ

- Customised or not: YES
- Price: according to the products
(about or less then 1/3 of Western suppliers' price)
- Minimum order quantity: 1 piece
- Payment terms: T/T, Paypal
- Express way: DHL, UPS, Fed Ex
- Lead time: 3 to 7 days
- Delivery time: 1-2days to Asia and American, 2-3days to Europe
- File Formats : Pro/Engineer, Solidworks, Unigraphics, AutoCAD
(IGS, STP, STL, X-T)
- Package: Bubble, foam , carton ,wooden case and special packing etc

Our advantages:

The logo for Dadesin, featuring the word "DADESIN" in white, bold, uppercase letters on a dark blue rectangular background.

- 1, We control the quality according to international standards.
- 2, We are a real large factory in rapid prototyping. Our price is very advantageous, even in china, our price is competitive.
- 3, We have cooperated with many customers all over the world. We can well understand the customers' idea and communicate with them. Language is not a problem.
- 4, Our work team is professional and high efficiency. We can guarantee the premium quality of products and delivery on time.
- 5, Inflating prices after order placement? NO, we never do this! We are honesty in business.

Say what we do, do what you expect, we are Dadesin Prototype.
