

INSPECTION OF LIQUID CARBON DI-OXIDE TANK AND REFRIGERATION SYSTEM

LIQUID CO2 STORAGE TANK CAN BE USED FOR STORAGE OF VARIOUS APPLICATIONS AS FOLLOWS:

Welding, Dry ice manufacturing, Beverages, Soft drinks, Mining, Transportation of frozen foods, Blast cleaning, Greenhouse gas reduction and environment safety....

We carry out Mechanical Design Calculations and prepare the Fabrication Drawings get it certified by reputed international Third party Inspection agency like BV, DNV, SGS, and others. The capacity of these tanks range from 5m³ to 500m³ as per customer's requirement.

We undertake complete Design, Material Procurement, Supply, Fabrication, Erection, Inspection, Testing & Commissioning of Liquid Co2 Tank and Liquid CO2 transport tanks.

SPECIFICATION:

- Design and Detailed Engineering
- Fabrication, Testing, Procurement, Erection, of Piping and tanks.
- Safety measures like various safety interlocks for high pressure and very low Temperatures.
- Supply and Installation of refrigeration units.
- Ground Improvement & Civil works.
- Electrical and Instrumentation work.
- Inner vessel pressure test according to ASME code.
