

Brief Introduction of Shanghai Vastar

Shanghai Vastar International Co.,Ltd locates in Waigaoqiao Free Trade Zone,Shanghai,China. We mainly manufacture and deal in carbon steel pipes,stainless steel tubes,alloy steel pipes,high purity stainless steel tubing according to ASTM,JIS,DIN,API,EN standards.Through several years cooperation with global customers,we have one good reputation due to our high quality products,competitive price and sincere service.Our business area has covered most countries and areas worldwide.Our expertise in this field will bring you high value and great success and we are ready anytime to team up with you in tubular and pipeline solution.

CARBON STEEL PIPES

Carbon steel pipes include seamless carbon steel pipes and welded carbon steel pipes,which are used for petroleum and gas industry,boiler manufacture,machine manufacture,construction,automotive and so on. Seamless carbon steel pipes can be divided into cold drawn tubes,cold rolled tubes,hot rolled pipes and hot expanded pipes according to their manufacturing methods.Welded carbon steel pipes can be divided into ERW pipe,SSAW pipe and LSAW pipe.

STAINLESS STEEL PIPES

Stainless steel pipes include stainless steel seamless tubes and stainless steel welded pipes,which are produced by cold drawing,precision rolling and automatic welding.The products have leading quality level and are mainly used for petroleum chemical industry,boiler manufacture,food,pharmacy,civil decoration,etc.

ALLOY STEEL PIPES

Alloy steel pipes from vastar are characteristic for his ultra big diameter,ultra heavy wall and withstanding ultrahigh pressure,which are widely used in the areas of supercritical high -pressure boiler,petroleum chemical industry,power plant,nuclear power station,shipbuilding.

HIGH PURITY STAINLESS STEEL TUBING

High purity stainless steel tubing is widely used in semiconductors,micro-electronics,solar energy,pharmaceutical,bio-pharmaceutical,food industry,etc.Through super micro cleaning and dustless packing,the products have excellent clean surface.

Pipe size:

OD SEAMLESS(1/4"~24")
ERW(8"~24")
LSAW(16"~64")
SSAW(8"~100")

WT 2-35MM or more.

Stainless steel coils/sheet:304,304L,310S,316,317,321,409,409L,410 etc.
